Consult MA DMF website for 2018 approved sources for seed purchases: https://www.mass.gov/service-details/find-an-approved-shellfish-seed-hatchery

MA Division of Marine Fisheries previously approved shellfish hatchery list:
NOTE: The following list contains seed sources that have been approved to sell seed shellfish in Massachusetts in prior years. Approval in prior years does not guarantee the source will be added to the current year’s approved source list. Before being added to the current year approved source list, all sources will be required to provide a current pathology report. This list is provided to be used as a guide when ordering seed. If you are considering ordering seed from a source that is not listed on the previously approved or the current year’s approved list, you should first contact the Division of Marine Fisheries Aquaculture Specialist.
